Supplementary Information for Returning Eritrean Residents from the USA

The Government of Eritrea has started the process for legal residents who have been stranded abroad since the COVID-19 related travel restrictions to return to Eritrea. Accordingly, the registration process has started, and everyone will be informed of the travel timetable and travel arrangements via email. We appreciate everyone's patience, and in the meantime we remind you of the following additional requirements:

1. Upon obtaining the Embassy's permission to return, returning residents are required to obtain a COVID-19 Negative PCR Test Certificate *within 72* hours of the date of the trip. Anyone without such a (COVID-free) certificate will not be able to board the chartered flight to Eritrea. Thus, travel plans should be made accordingly.
2. Returning residents will be quarantined for a period of 14 days upon arrival in Eritrea. However, with the shortage of available accommodations, returnees should be cognizant that they may be paired to room together (two per room).
3. All expenses—chartered flight, food, and accommodations during quarantine and COVID-19 PCR Testing (at the end of quarantine)—will be the full responsibility of the returning residents.
